GROUP EXERCISE CLASS DESCRIPTION

BODY COMBAT: A non-contact martial arts inspired class; high energy punch and kick movements to help burn calories and tone your whole body

BODY PUMP/RIP: Full body barbell workout using light to moderate weight at high repetitions to build strength and lean muscles

BUTI YOGA: HIIT power yoga that combines cardio-intensive tribal dance with body sculpting movement; incorporates movements along all planes of motion, not just linear

CYCLE: Combines intervals, high intensity, and recovery to build endurance and strength

CYCLE/STRENGTH: Mix of Cycling and MaxPump; combines weight training and cardiovascular exercises

HIP HOP: High-energy choreographed dance routines set every month to achieve weight loss, tone muscles, and increase stamina

KICKBOXING: A fusion of boxing, martial arts and aerobics set to music; offers an intense cross-training and total-body workout

MAXBURN: Boot camp style workout including circuit and interval training to burn fat and increase strength and agility

PILATES: A non-impact strength and flexibility training that improves posture, increases flexibility, circulation and balance and creates inner awareness

YOGA: Promotes concentration, health, harmony, and self-awareness to help reduce stress and improve stability with an emphasis on building strength

ZUMBA: A dance-cardio mix of low and high intensity moves; improves balance and flexibility along with muscle conditioning
